

PROJECT PROFILE:

RESTAURANT REMODEL: BACKYARD BURGER

Before

After

Project Summary

Customer	Backyard Burger
Location	Brentwood (Nashville), TN
Product	Virginia Stacked Stone
Color	Mountain Country
Overview of Project	Backyard Burger has a program to refresh their restaurants exteriors for more curb appeal. They previously used a red tile wainscot and an EIFS on the upper area. They chose to boldly paint the upper area and use the Virginia Stacked Stone for the Wainscot section. The project was completed in 2/12 days without interrupting the business.
